

ANNEX II (Health professionals PROFILE)

	<u>POINTS</u>	<u>APPLICANT</u>
Advanced academic background		
• Specialization (Clinical Pharmacology and Toxicology) ¹	10
• PhD	6
• Other medical specialization ²	5
• Master	3
Post-graduate 5 years background		
• Pre-clinical Research	10
• Clinical Research	10
Continuous Education (lifelong)		
• CME courses	max 6
• ECTS/Academic advanced courses ³	max 8
• Certifications (i.e. Toxicology, quality, etc)	max 6
Professional position (applicable at Pharmaceutical Industry/Hospitals) (the highest)		
• Chairman/Owner ⁴	12
• High level Direction (CEO)	11
• Chief ⁵	10
• Manager ⁶	9
• Hospital general director ⁷	10
• Hospital department director ⁸	9
• Hospital medic ⁹	8
• Hospital medic ¹⁰	7
• Hospital medic ¹¹	6
• General Practitioner ¹²	8
• Hospital Pharmacist Director	9
• Hospital Pharmacist/Biologist ¹³	8
• Hospital Pharmacist/Biologist ¹⁴	7
• Fellow Hospital Pharmacist/Biologist ¹⁵	6
• Public Pharmacist ¹⁶	8
• Biomedical laboratory technician ¹⁷	6
Professional background in Pharmacology/toxicology field		
• Awards (in the last 15 years)	max 6
• Grants (in the last 15 years) ¹⁸	max 6
• Clinical trial research team membership ¹⁹ (in the last 15 years)	max 8
• Drug repurposing	max 8
• EPHAR/EACPT Scientific societies membership (depending year of registration)	max 10
• Other Scientific societies membership ²⁰	max 6
• Advisory boards (in the last 15 years)	max 6
• Teaching ²¹	max 6
• Editorial boards	max 5
• Publications (Peer review, company reports, guidelines, etc.)	max 10
Total (min 60 POINTS)	

NOTES

¹Specialization: Clinical Pharmacology and Toxicology or Medical Pharmacology /Toxicology;
Specializzazione in Farmacologia Medica o Tossicologia

²Other medical specialization: in any other medical field; Altre specialità nel campo delle discipline mediche o
Specialità in Farmacia Ospedaliera

³Corsi di perfezionamento universitari, formazione a distanza certificata

Pharmaceutical

⁴Owner, Titolare Dell'Azienda farmaceutica, Biotecnologica, Farmacista Titolare, Farmacista Amministratore

Pharmaceutical

⁵Chief

CMO, Chief Marketing Officer (Direttore Marketing)

CIO, Chief Information Officer (Direttore informazione)

CKO, Chief Knowledge Officer (Direttore Organizzazione)

CCO, Chief Compliance Officer (Direttore della conformità)

⁶Manager

HR Manager, Human Resource Manager (Direttore del personale)

R&D Manager, Research & Development Manager (Direttore del reparto ricerca & sviluppo)

PM Manager, Product Manager (Responsabile prodotto)

PM Manager, Project Manager (Responsabile di progetto)

PM Manager, Plant Manager (Direttore di stabilimento)

Hospital

⁷Direttore Sanitario, Medico, Medico e Scientifico (Istituti di ricerca, IRCCS, etc)

⁸Primario, Vice Primario, Capo Dipartimento (Aziende Ospedaliere Universitarie)

Hospital

⁹ a tempo indeterminato (strutturato), Dirigente Medico, Caposervizio, Resident physician

¹⁰Medico a tempo determinato, Capo clinica, consulente o in libera professione

¹¹Medico specializzando, Medico assistente, Assistant physician

¹²Medico di Medicina Generale

¹³Dirigente Farmacista Ospedaliero, Dirigente Biologo

¹⁴Farmacista o Biologo specializzato in Farmacologia a tempo determinato, consulente o in libera professione

¹⁵Farmacista o Biologo Specializzando in Farmacologia con contratto di formazione, consulente o in libera professione

¹⁶Farmacista dipendente in Farmacia Aperta al Pubblico (Privata o Comunale)

¹⁷Tecnici di laboratorio universitari od ospedalieri laureati cat. D o EP

¹⁸Grants: Finanziamento di bando competitivo a carattere nazionale e/o internazionale

¹⁹Clinical trial research team membership - partecipazione ad uno o più trial clinici con i seguenti possibili incarichi:

- Principal investigator is the professional responsible for leading the clinical trial at the site
- Investigator: An investigator for a clinical trial can hold a number of responsibilities, including but not limited to a serving as a physician, pharmacist, biostatistician, consenting and/or treating participants, conducting data analysis and determining results, or conducting basic research on collected specimens in a laboratory.
- Clinical Research Coordinator/Associate: Clinical Research Coordinators or Associates, often called CRCs or CRAs are a critical research support role that handles the daily conduct of a study. They interact heavily with both participants and investigators, doing things like screening participants, obtaining informed consent, checking eligibility, collecting and entering data, and more.

²⁰Appartenenza ad altre Società scientifiche

²¹Teaching: incarichi di insegnamento e di attività didattica integrativa; partecipazione a commissioni d'esame di profitto, in qualità di cultore della materia
